

EXPLOSIVE ENERGY CONCEPT FOR DRILL PRODUCTIVITY & HIGHER OVERALL PRODUCTIVITY AT REDUCED EXCAVATION COSTS

Satish R. Kate, B.E. (Mining)
Dy. General Manager, IBP Co. Limited, Nagpur.

Introduction

Explosive is a chemical energy, which on detonation is released instantaneously with extremely high speed and under high pressure. It is used to meet the basic requirement for breaking of rocks. The productivity is the function of Drilling, Explosives and
